Advertisements must be particular to mark the number of insertions on the face of their advertisements, or they will be published uncorrected out, and charged accordingly.

Advertisements should be handed in by TEN O'CLOCK, on the shortest possible notice.

JOHN H. TRIPP, 75 South Fourth street, a corner Walnut, Philadelphia, is our authorized agent to obtain Advertisements for us in that city.

WOODS & QUINN, Publishers of the Commercial Register, are our New York Agents. Office 140 Fulton Street, New York.

The Law of Newspapers.

1. Subscribers who do not give notice to the contrary, are considered as wishing to continue their subscription.
2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid.
3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible for the cost of the paper, and ordered to be discontinued.
4. If subscribers remove to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.

The Courts have decided that, refusing to take papers from the office, or removing and leaving them unclaimed, is a prima facie evidence of intentional fraud.

Postmasters who notify a publisher that a newspaper is not taken from the office, are required to give the reason why they are not taken out. (See Post Office Instructions and Laws.)

JOB PRINTING.

See a good Job Printer, we are prepared to execute all orders in this department with neatness and dispatch. We would respectfully ask merchants and all others who want

CARDS, CIRCULARS, PAMPHLETS, BLANKS, HANDBILLS, BILL-HEADS, TICKETS, PROGRAMMES, CATALOGUES.

To give us a call. Our Job Type are of the most modern manufacture, and cannot fail to please all who may favor us with their patronage.

Governor's Message.

We give this valuable document a publication this week, more from the established custom in such cases, than from a conviction that our columns might not have been better filled.

His ex-Excellency seems to be withholding under the castigation of last October, for he whines most piteously over the responsibility of executive officers. He says:

"The fact that taxes are one thing, the tax law another, will then become apparent to all; we will look to the General Assembly, and to the local authorities of the State, for a reduction of taxes, rather than to executive officers."

For fellow! the people held him responsible for the infernal machinery of his party, by which every unwholesome measure of his friends were inflicted upon the people of the State. Like a "whip child," he cries out most shamefully, "I didn't do it,"—it was the Legislature, not me.

His own party friends are even ashamed of him in this particular. Billy's bachelordom don't save him from occasionally laughing the "baby," especially when the "pap" is removed from his Honor.

But listen again to the Democratic standard bearer, (and just now he strikes his bachelordom and says, "there is one citadel that never has been stormed.")

"Any attempt to reduce the aggregate by a mere change in the manner and mode of collecting them, will prove as futile as an attempt to change the weather by breaking the barometer."

Ah! yes, any attempt to change will break the barometer instead of changing the weather. The people broke the barometer last fall, he thinks. Very well, what if they did? and the new barometer that they have placed in his stead, if not a more certain index to the state of the weather, than the old one, will soon be broken also, and a third one placed in its stead. The people are determined to have a true index to the State of the weather. Let it cost what it may, and such they did not find in William Medill. Instead of showing true public sentiment as in the cool breezes of the North, his index pointed unerringly to the warm and sunny South, with all its blessed privileges.

But listen how learnedly the old rascal gentleman discourses upon the question of **WHEAT** to pay taxes—

"If, in addition to this, the taxes could be collected semi-annually, instead of annually, they would be far less severely felt by the people."

Would not this recommendation of the Democratic Governor, if carried into practice, be a nice move on the chess board of the exchequer? It would be a **TRUMP** in Euclid! The people don't pay taxes often enough to suit the enlarged views of this far-seeing apostle of Democracy! How could the taxes be less severely felt? He descends long and loud upon the subject of enormous fees of county and township officers as they now stand; but recommends double duties for the county. Auditors and Treasurers, as a means of reducing the people's taxes! Who ever heard of such logic. Increase the expenditures of the very officers whose salaries or fees are the heaviest as the proper mode to decrease the taxes. We are compelled to the conclusion that the standard bearer, in this part of his message, became a "little" **BOX** COMPTON; but soon he became truly patriotically poetical and dwelt in

the regions of sublimity, and perpetrated the following: "The ashes of Andrew Jackson are buried among the Western people! Oh crackle! What a thought! A bird of heavenly plumage fair, &c. We come down and quit. Read the message, dear reader, for yourself. You will doubtless see more beauties than we have time or space to give."

Honor to whom Honor is Due.

Messrs. A. R. Johnson & Clark Manfull of Augusta, have this week laid us under lasting obligations to them, for their disinterested efforts in our behalf, by sending us thirty new subscribers from Augusta. That swells our list in Augusta Township to SIXTY EIGHT.

That is the way to support your county paper. Three cheers for Augusta. Can it be, that, "that same old Coon," the "Blue light Federalist," "black cockade" and all were off to Columbus to an Anti-Slavery gathering? Who knows?

The January number of the U. S. Magazine has arrived. The Magazine is a monthly periodical, devoted to Science, Art, Manufactures, Commerce, Trade, &c., and is worthy an extensive circulation. The number before us contains biographical sketches of Lewis Cass and Wm. H. Steward, with original portraits. The Magazine is published by J. M. Emerson & Co. New York, at \$1.00 per annum.

FALLING IN LOVE.—No more falling in love after this. We are all to be pitched into it, willing or unwilling. Professor Roxbury has betrayed the secret. He teaches you how to make anybody love you that you wish. He furnishes in his curious book, "The Bliss of Marriage," the entire key to the mystery. If you want a lady, she must become yours. If you need a husband, pick out one you can love. Read Roxbury, and the matter is settled. The book is advertised in our paper to-day.

Hon John A. Bingham of the U. S. House of Representatives, will please accept our thanks for valuable papers.
